## The Farmers' Institute

For Lawrence County will be held at Louisa Next Week.

The Lawrence County Farmers' Institute will be held at Louisa on Tuesday and Wednesday, July 7th and 8th, under the auspices of the State Department of Agriculture, the State Board of Agriculture, Forestry and Immigration and the Lawrence County Farmers' Club.

All farmers of the county are urged to attend the full sessions of this institute and hear the speakers. Ladies are especially invited. Also, West Virginia farmers are invited to attend.

Good speakers and men who are authorities on various subjects of interest to the farmer and stock raiser are sent here to lecture at these institutes and farmers who fail to attend are missing a great deal. There is no cause for complaint on account of lack of attendance at these institutes.

It is just as necessary to keep up with modern methods in farming as any other line of work in order to get the best and most profitable results. Agriculture is the basis of all property. Our farmers have ample opportunities if they will take advantage of the new conditions and the new methods of farming.

The largest crowd that has been attracted to Fountain Park this season went over last Friday afternoon to witness a game between a club composed of Louisa business men and another of professional men. A large number of ladies graced the occasion with their presence.

The game as a whole was very creditable, considering the fact that about two decades had elapsed since some of the players had taken part in a game. The final score stood 12 to 13 in favor of the professionals. Ten innings were required to settle it as they were tied in the 9th. Another game is being played between the same teams this (Thursday) afternoon.

"Trusty Bill" Spaulding who has been a dispenser of the ardent contrary to law for a considerable length of time on the Kentucky side of Tug river just opposite Tunnel No. 6 was surprised one day last week by Martin county authorities swooping down on his blind tiger with a liberal quantity of dynamite, blowing it to pieces and setting fire to the wreck, burning what had not been blown away. "Trusty" made good his escape, however, fleeing to West Virginia where he is now in hiding.—Ft. Gay Leader.

## BIDS OPENED

For Building Levisa Dam.

A St. Louis Firm is Lowest Bidder, at \$126,189.00

Bids were opened at Cincinnati last Friday for the construction of Big Sandy river dam in Levisa fork at Chapman, eight miles above Louisa. The lowest bidders were James Skene & Sons, of St. Louis. Their bid was \$126,189.00. The next higher bid was \$129,580.00, by Mason & Hanger, of Richmond, Ky. The highest bid was \$147,810.00. There were four bidders.

The bids for building dam No. 1 on the Tug Fork, four miles above Louisa, are to be opened in Cincinnati today.

Congress appropriated \$235,000.00 for the construction of these two dams, and we presume the total of the two lowest bids will have to come within this figure to be acceptable.

## NEW RAILROAD

Reported to be Projected From Holden to Huntington.

The following is from a Huntington paper:

Straight from an authoritative source comes a piece of railroad news of such dimensions as to cause the entire railroad world to sit up and take notice and it is no more than the announcement of the move now on foot by the United States Coal and Oil Co., of Holden W. Va., to build a railroad down the Guyan Valley to Huntington and by so doing get entirely away from domination by the Chesapeake and Ohio. It is said, the line will be continued across the Ohio river into Ohio and to a point about 50 miles north.

A large corps of engineers are now in Holden ready to begin the preliminary surveys. There is little question of the authority of this announcement as it is a positive fact that the company has already arranged for a loan of \$3,000,000.

By building this 125 miles of new road the Holden company will secure an independent outlet for its products to the whole world. Any one can see the tremendous importance to it to Logan and to Huntington of such a line. Take a railroad map and draw a line 50 miles northeast of Huntington and see the four or five important connections thus made possible. The B. & O., the N. & W., the C. & D., the Ohio Central and others give north, south, east and west connections everywhere.

Such a line would be of vast benefit to the Logan field. It would cut out of the clutches of the C. & O. line and would put it in the best position in the State. It would be the only field with competitive outlets.

The United States people as well as all the shippers from this field have been very much dissatisfied with the facilities afforded them by the C. & O. railroad. All have been obliged to take what they could get from the railroad and go without what they wanted. The U. S. Co., however, being able to command the capital, has decided to build independently as above stated.

## The Sun's Eclipse.

The eclipse of the sun last Sunday morning attracted a good deal of attention. The sky was clear and the conditions were therefore favorable to a good view. The eclipse was sufficient to turn the bright day into one of hazy and twilight effect. About five sevenths of the sun's surface was obscured.

The services at the grave were brief, lasting less than five minutes. President Roosevelt, Gov. Hughes, of New York; Gov. Fort of New Jersey; Gov. Smith, of Georgia; Hillary Herbert and other distinguished men were present.

## Home Circle Column.

### A Column Dedicated to Tired Mothers as They Join the Home Circle.

Never suspect a friend of doing you wrong until the proof is as plain and clear as the sun is at noon on a cloudless day, and then—yes, even then do not accuse or censure until you have heard from his own lips his version of the supposed wrong. If you were ever a friend to him he is certainly entitled to that much forbearance and consideration. If this rule was practised, many a misunderstanding would be averted, and many a headache spared.

Young women have the same longing to get away from their native towns and live among new scenes and changed surroundings as boys are possessed of. They feel the weight of local environments, even more than the opposite sex, and one frequently hears the remark, "I wish I were a boy, then I could have some freedom."

This marks a critical period of a young lady's life. She needs, more than ever before, wise and loving counsel, and sympathetic companionship of a true friend; and there is no friend like a mother in usefulness, untiring devotion. Girls, tell your mothers of your hopes and ambitions, and you are quite certain to receive advice which you can accept with profit, and with will do you good.

So far as possible, let all women dress beautifully; so God dresses the meadows and mountains. Let them wear pearls and diamonds. If they can afford it, God hung around the neck of his world strings of diamonds, and braided the black locks of the storm with ribbons of the rainbow. Especially before and right after breakfast, ere they expect to be seen of the world, let them look neat and attractive for the family's sake. One of the most hideous sights is a slovenly woman at the breakfast table.

Here is a puzzle which everybody is flinging at everybody else; some people give according to their means, others according to their meanness.

Good temper is like a sunny day; it sheds its brightness everywhere.

### THE RISE OF A BOY.

This boy goes to his business, and at his business begins by simply doing the things he is told to do and doing them in a common and ordinary way. If he stops here he remains all his life long a drudge. But, if he begins to see that business has a significance, that his life is not merely sweeping the store, not merely writing letters, not merely selling goods; if he begins to see the higher life involved in business; if he begins to see that business is a greater instrument of beneficence than that we call beneficence, that trade is clothing thousands of men where charity feeds ten; if he begins to see how the whole history of the world is linked together, and is God's way of building up humanity and serving humanity—as he gets his larger view, and enters into it, life is enriched and becomes itself the minister whereby love is enlarged and conscience is straightened, the school wherein he is educated out of the lower into the higher.

### THAT DEBT.

It is a small one, to be sure, and apparently not worth a serious thought. Why not then pay it? Why be compelled to suffer the mortification of a dun? Why not take that little thorn out of your finger at once? It will fester if allowed to trouble remain, and cause ten times the trouble. Why not relieve the conscience of that little load? You contracted the debt knowingly and willingly. Did you mean to pay it? Certainly you did. Then why not do it at once? Every day's delay increases, morally, the amount of your obligation. Remember, too, that your little debt, and a thousand other men's little debts, make a little fortune for your creditor.

It is one of the paradoxes of life that the more a woman keeps her husband in hot water the colder he grows toward her.

### TEACH CHILDREN POLITENESS.

Teach children to be polite. Teach them there is nothing but goodness of heart of so much durability as a pleasant deportment. They will lose the idea after awhile that it is smart to be pert and boisterous, and take pride in being little ladies and gentlemen. Teach them to say, "How do you do?" or "Good morning!" with whom you are acquainted; never to contradict, whisper, hum, beat a tattoo with the fingers on the furniture, or roll around in lounging attitudes

in company; to say "Yes, ma'am," and "No, sir," "What ma'am," and "If you please," and "Excuse me," if it is necessary to pass before anyone, or to leave the table before the rest, and never do any of the things for which it is necessary to be asked to be excused unless it is absolutely unavoidable; not to toss things around of handing them; not to their ears; not to refuse to give the their ears; not to refuse to give the whole to a visitor when the half will not do. A polite child is the best of companions, but a rude one is a troublesome nuisance, and will find himself learning at 18 or 20 things which should have been taught him when a child.

There is as much truth as poetry in the lines.

"Laugh, and the world laughs with you;

Weep, and you weep alone"

And perhaps it is well. There is inevitable sadness enough in each lot without adopting that of others. Sympathy for real troubles should always be given, along with what is possible. But there are many persons who, especially in their own families, talk too much of their own ills and troubles, although they are always smiling and genial among strangers, and ever ready with a pleasant "thank you," for every service rendered. If they can rise above their despondencies in the presence of strangers, with a persistent effort they can stay above them at home, till they may in the end forget a part of them. If you would pass successfully through life wear a bright face and a pleasing manner though they may sometimes mask a heavy heart.

It is not generally known that the custom of keeping birthdays is many thousand years old. It is recorded in the fortieth chapter of Genesis, twentieth verse: "And it came to pass on the third day, which was Pharaoh's birthday, that he made a feast unto all his servants."

## Watch Repairing.

If your watch is worth repairing at all it should be done right. The prices charged by competent and hotel workmen are about the same. Often the skilled watchmaker will charge less, because he can tell what is to be done and is not making a wild guess. More watches are ruined by tellows who are trying to learn this delicate and scientific trade by practicing on the public's timepieces than ever wear out or are broken in any other way.

C. A. Benn at Conley's store, served a full apprenticeship at the trade and has had 42 years of experience. He also does all kinds of jewelry repairing and engraving. All work guaranteed by a good guarantee.

## Job Printing

Some of you are paying more for your job printing than the Big Sandy News office charges, and getting a poorer class of work and a cheaper grade of stock. It is worth your while to investigate.

## RUBBER STAMPS.

Rubber stamps are a great convenience for certain purposes. They are not suitable for printing your letter heads and envelopes. Neatly printed stationery looks business-like and is cheaper, all things considered, than buying blank stock and stamping it yourself.

However, waterproof rubber stamps at 1 cent for a single line 3 inches or less in length. 25 cents for 3 lines, 3 inches or less.

## Don't Neglect It

It is a serious mistake to neglect a weak heart. It is such a short step to chronic heart disease. When you notice irregularity of action, occasional short breath, palpitation, fluttering, pain in chest or difficulty in lying on left side, your heart needs help—a strengthening tonic. There is no better remedy than Dr. Miles' Heart Cure. Its strengthening influence is felt almost at once.

"I have used 10 bottles of Dr. Miles' Heart Cure and can truthfully say it has done me more good than anything I have ever used, and I have tried nearly everything that I know of. The doctor who attended me asked me what I was taking and I told him Dr. Miles' Heart Cure, and he said it was not going to do me any good, but it did. I have not taken any for a year now, and while there is occasionally a slight symptom of the old trouble, it is not enough for me to suspend the use of the medicine. If I should get Dr. Miles' Heart Cure as I did before, I consider myself practically cured of my heart trouble."

R. B. DUNHAM, Livingston, Tenn.  
Dr. Miles' Heart Cure is sold by your druggist, who will guarantee that the first bottle will benefit it. If it fails he will refund your money.

## Announcement.

### FOR CONGRESS.

Ellis E. Lawrence, of Boyd county, authorizes us to announce his candidacy for Congress from the 9th Congressional District, subject to the action of the Democratic convention.

### FOR CONGRESS.

We are authorized to announce CHAS. KITCHEN, of Carter County, as a candidate for Congress from the Ninth Congressional District, subject to the action of the Democratic party.

### FOR CONGRESS.

EDGAR B. HAGER, of Ashland, Ford county, is a candidate for Congress subject to the action of the Democratic party.

JAMES N. KEHOE, OF MASON, announces his candidacy for Congress in 9th District, subject to the action of the Democratic Convention to be held August 5th, 1908.

Justice Lambert of the Supreme Court of New York, ordered the jury to render a verdict declaring that George B. McClellan was duly elected Mayor of New York City in 1905. W. R. Hearst made a bitter contest to oust McClellan. McClellan's plurality was 2,965 after a recount of the ballots.

Figures at the close of the fiscal collections for the Fifth district of Kentucky were less by over \$444,000 than for the previous year. The slump was in tobacco taxes, those on whisky having shown an increase. The total reaches over \$15,000,000.

Though candidates for the second place on the Democratic ticket are turning up on every side, it is believed that if he will consent to accept it, Judge George Gray, of Delaware, can be named with little opposition. Judge Gray's manager, however, insists that his man is in the race for first place to stay and will not think of the vice presidency until after the President is nominated.

The announcement of Hon James N. Kehoe for Congress appears in this issue of the NEWS. He is too well and favorably known to require an introduction at our hands, having ably represented our district two terms in Congress.

In his letter he says: "Yielding to what seems to be a general request, I have decided to enter into the race for the democratic nomination for Congress at the approaching Convention. I feel like I can certainly redeem the district if nominated, and I am anxious to do so. I trust that I may receive the same kind of consideration at the hands of the Democrats of Lawrence that they have heretofore so generously extended me."

Ayer's Hair Vigor will certainly work, because, first of all, it does not contain any of the original dandruff. Having given this aid, it cures the scalp. The scalp is a healthy condition.

"Health Coffee" is really the closest coffee imitation ever yet produced. This clever coffee substitute was recently produced by Dr. Shoop, of Racine, Wis. Not a grain of real coffee in it either. Dr. Shoop's Health Coffee is made from pure, toasted grains, with malt, nuts, etc. Really it would fool an expert—who might drink it for coffee. No 20 or 30 minutes tedious boiling. "Made in a minute," says the doctor. Spd by D. C. Spencer, Louisa, Ky.

#### Watch Repairing.

If your watch is worth repairing, all it should be done right. The best charged by competent and honest workmen are about the same. Often a skilled watchmaker will charge, because he can tell what is to be done and is not making a wild guess. More watches are ruined by those who are trying to learn this trade and scientific trade by cutting on the public's timepieces than ever wear out or are taken in any other way.

A. Benn at Conley's store, serving a full apprenticeship at the watch and has had 42 years of experience. He also does all kinds of jewelry repairing and engraving. All work guaranteed by a good guarantee.

### CORNERSTONE

Laying and General Celebration at Louisa on July 4th.

Oration by Hon. John W. Langley. Grand Lodge to Lay Corner Stone of Kentucky Normal College.

#### FINE PROGRAM AND GOOD MUSIC.

Louisa will have a big celebration on the 4th of July. To the usual exercises will be added the important feature of a cornerstone laying for the Kentucky Normal College building. The foundation has been completed and everything will be ready for the formal exercises so beautifully carried out by the Masonic order.

The Grand Lodge of Kentucky has already notified the committee that officers will be here to perform the ceremonies.

Hon. H. P. Chenoweth, Grand Senior Warden, will be in charge of the rites.

Hon. John W. Langley, Congressman from the Tenth district will be the chief orator of the day. His oration will be worth coming to Louisa to hear. He is a polished speaker.

The usual athletic exercises and races of all kinds will be provided, with interesting cash prizes.

All the secret orders of this section have been invited to take part in a grand parade, with their regalia.

A fine brass band will furnish music under the leadership of a first-class director brought here for this purpose.

There will be plenty to eat and all the ice water and soft drinks the crowd may desire. Everybody invited and will be heartily welcome. Come and bring your families and enjoy this historic day. The crowds in Louisa are always sober and this is the only kind of a place where you can afford to take your wife and children upon such occasions.

Some of the program will be as follows: Cash prizes will be given for the first, second and third best call-thumpians, decorated ponies and carts, boxers, etc. Winners and second best in men's foot races; also, boys' foot races; entries under 12 years. Egg race, sack race, fat men's race (200 pounds or over), ugliest man, prettiest girl under 40 years of age, oldest confederate soldier, oldest Union soldier. Singing contest for men, decided by crowd.

The greatest number of children of one family on the ground will get a prize.

Col. Jay H. Northrup will be marshal of the day.

G. W. Castle, M. S. Burns and F. H. Yates, managers of program.

All prizes will be paid by G. A. Nash.

#### Obituary.

Death has again visited our community and claimed from us our darling grandfather, John Bellomy. He was a devoted Christian, having joined the M. E. Church, South, in his youth. He embraced the religion of our Lord Jesus Christ, about 50 years ago and his life has been a written epistle since.

He was taken sick June 1907, and he patiently endured his afflictions for nearly 12 months, he was willing and ready to go and God took him from us Saturday, June 13. Surrounded by two daughters, two sons and a number of friends his spirit quietly passed away. Grandpa was 80 years, 11 months and 5 days old. He leaves five daughters and three sons to mourn their loss and a host of grandchildren and friends. Everything was done for him that could be done but God took him to dwell in paradise where flowers do not fade nor loveliness decay.

Our home will be lonesome without him, but weep not, you will find him there waiting and watching for you. While we are sad and lonely in this gloomy world he is enjoying the happy association of holy angels.

May God bless and comfort his children and give them divine grace to bear this sad trial and may they have patience to run the race that is set before them and meet him in heaven. His granddaughter, Adeline, KY.

#### LAME EVERY MORNING

A Bad Back is Always Worse in the Morning. Louisa People Are Finding Relief.

A back that aches all day causes discomfort at night is usually worse in the morning. Makes you feel as if you hadn't slept at all.

Can't cure a bad back until you cure the kidneys. Doan's Kidney Pills cure sick kidneys—make you feel better, work better, rest better and sleep better.

Permanent cures in Louisa prove the merit of Doan's.

Mrs. C. A. Evans, living in Louisa, Ky., says: "My husband often came home complaining of his back pain. He hardly knew what to do with himself at times and was so weak and lame that he would frequently give up. When bending or stooping sharp pains through his kidneys caused him the most intense misery and made life a burden. He had heard so many people praise Doan's Kidney Pills that he procured them and began their use. I have not heard him complain since taking them, and his health has greatly improved. I have also seen other cases where Doan's Kidney Pills have been used with beneficial results and I have no hesitation in recommending them."

For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

#### Heart Strength

Heart strength, or Heart Weakness, means Nervous Strength, or Nervous Weakness—nothing more. Positively, not one weak heart in a hundred is, in itself, actually diseased. It is almost always a hidden tiny little nerve that really is at fault. This obscure nerve—the Cardiac, or Heart Nerve—simply needs, and must have, more power, more stability, more controlling, more governing strength. Without that the heart must continue to fail, and the stomach and kidneys also have these same controlling nerves.

This clearly explains why, as a medicine, Dr. Shoop's Restorative has in the past done so much for weak and ailing hearts. Dr. Shoop first sought the cause of all this painful, debilitating, suffocating heart distress. Dr. Shoop's Restorative—this popular prescription—is alone directed to these weak and wasting nerve centers. It builds; it strengthens; it offers real, genuine heart help. If you would have strong hearts, strong digestion, strengthen these nerves—re-establish them as needed, with

Hogs—Receipts of hogs were moderate at the start and packing and butcher lots sold early at steady prices, but as subsequent receipts were much larger than figured on, and lower prices were reported elsewhere, a weaker tone developed and the aggregate of final transactions was a nickel lower.

## Cleveland on Predatory Wealth.

In view of the prominent part the  
question of the tariff and predatory  
wealth are to play during the com-  
ing presidential campaign, these pithy  
sentences from the late Grover Clevel-  
and on the subjects are timely:

"He mocks the people who propos-  
ed that the Government shall pro-  
tect the rich and that they in turn  
will care for the laboring poor."—  
From the fourth annual message to  
Congress, December, 1888.

"Our progress toward a wise con-  
clusion will not be improved by  
dwelling upon the theories of protec-  
tion and free trade. It is a condi-  
tion which confronts us—not a  
theory."—From the third annual mes-  
sage to Congress, December 1887.

"Our present tariff laws, the vi-  
cious, inequitable and illogical source  
of unnecessary taxation ought to be  
revised and amended at once."—  
From the third annual message to  
Congress, December, 1887.

"We believe that these trusts are  
the offspring of a market artificially  
restricted; that an inordinately high  
tariff, besides furnishing the tempta-  
tion for their existence, enlarges the  
limit within which they may operate  
against the people, and thus increase  
the extent of their power for wrong  
doing."—From letter accepting re-  
nomination in 1888.

"As we view the achievements of  
aggregated capital, we discover the  
existence of trusts, combinations and  
monopolies, while the citizen is strug-  
gling far in the rear, or is trampled  
to death beneath the iron heel  
Corporations, which should be care-  
fully restrained creatures of the law  
and servants of the people, are fast  
becoming the people's master. This  
is not equally before the law."—  
From the fourth annual message to  
Congress, December, 1888.

"Communism is a hateful thing,  
and a menace to peace and organ-  
ized government. But the communists  
of combined wealth and capital, the  
and selfishness, which insidiously un-  
dermines the justice and integrity  
of free institutions, is not less dan-  
gerous than the communism of op-  
pressed poverty and toil, which, ex-  
asperated by injustice and discon-  
tent, attacks with wild disorder the  
citadel of rule."—From the fourth an-  
nual message to Congress, December,  
1888.

The remarks of Mr. Cleveland are  
of peculiar weight, for while, com-  
pare with the reformers of a later  
generation, he was the most conser-  
vative of reformers, he was an avowed  
enemy of a corrupt tariff and of  
predatory wealth. More modern cru-  
sades have not exceeded him in vigor  
and happiness of expression.

Uncle Sam has found that  
Star Brand Shoes  
ARE BETTER

Many of the largest manufacturers in  
America have just participated in the  
competitive bid for contracts to supply  
shoes for the United States government.

All the shoes were cut to pieces. Uncle  
Sam's buyer uses the knife, cuts, tears  
and tests the leather in every way.

"Star Brand" stood that test best, and  
as a result we were awarded the order  
for men's and boys shoes. It was a  
nice order, amounting to

24,470 PAIRS

15,320 pairs for Boys and 9,150 pairs for Men. We are proud of this order  
and Uncle Sam's employees and wards will be proud of the shoes  
we will send them.

Uncle Sam thus gives his stamp of approval to the honest  
construction of "Star Brand" shoes and thus endorses the good judg-  
ment of 15,000 who now sell "Stars" and over 3,000,000 people who  
now wearing shoes with our Star stamped on every heel.

Uncle Sam Walks on Stars, So can You."

## OIL DEVELOPMENT

## Going Along Well in the Kentucky Fields.

Barbourville, Ky., June 15.—New capital has entered the Kentucky coal field during the past week, and new developments will occur in several sections. The past few weeks have witnessed an expansion of the drilling forces, and the production of oil is increasing with increased activity in field work.

The biggest deal in the oil fields in many months was the purchase of the holdings of the J. H. Morgun Oil Company, of Lexington, by Blummore Bros., of Pittsburgh. It is given out that the purchase price was \$100,000. The territory included in the deal contains producing and undeveloped leases, and is situated in Wolfe county, the center of the oil development industry in upper Kentucky. While the old company drilled a large number of wells and had a good settled production, the new owners will augment the drilling force and will try out drilling in new directions.

Another deal of importance the past week was the purchase of a partly-developed acreage in Wayne county by the Cumberland Natural Gas Co., of Barbourville. The lease contains a prolific gas development. The Cumberland Natural Gas Co. has started the installation of a natural gas system at Monticello, Ky., using the product of the wells already drilled. New drilling will be undertaken.

Activity is increasing in the larger fields reached by the Standard Oil Company's pipe lines. Probably a dozen new wells have been started in Wayne county during the past week. Some good strikes have lately been made, and the success attending drilling in new sections is stimulating work. Wayne county is the largest oil producing field of Kentucky. In other fields inducements are held out for much new work by the success attending new developments in some of the preceding divisions. As yet, there is still a dearth of activity, and it will take better prices on crude oil to bring out the drilling force.

Oil prices have been firm for the past six months, the two purchasing companies quoting \$1.03 and \$1, respectively, on the better grade. The inferior grade commands 75 cents per barrel.—W. S. Hudson in *Manufacturers' Record*.

## In Memory.

Hermia Irene, daughter of Frank and Hattie Wellman, was born Dec. 9, 1904, died June 16, 1908. Hermia was a sweet little girl of rare beauty, and very intelligent. She was the light and joy of the home. Only lived a few hours after an attack of membranous croup. All was done that loving hands could do. We all loved her, but God loved her best, at 7:15 o'clock the sweet little spirit winged its way to the House not built by hands, where she joined the society of the pure and blest.

The parting was a sad one, father and mother, with many friends loathed to say good-bye, but we sorrowed not as those who have no hope. We look to Him who said: "Suffer little children to come unto me, for of such is the Kingdom of Heaven." A special dispensation was granted the Big Sandy Lodge of I. O. O. F., who went out in full regalia to help in the burial of the precious child, who was laid to rest in the cemetery at Zella. Misses Judie Turman, Ruth Wellman, Ethel Thompson and Nola Estep were pall bearers. It was a sad occasion because of the intense sorrow of the father and mother, but we feel that they will endeavor to live so as to meet their darling again, and now we can do more than say: Sleep on, sweet Hermia, O gently sleep.

You've crossed the chilly tide An joined the bright celestial host Upon the other side.

May God bless the bereaved father and mother.

Buchanan, Ky. J. M. Hicks.

## Death of Harry B. Cooksey.

Death has made its way into our little town and robbed us of one of our bright young men, who was an honor to his country and liked by all. But God saw fit to call him to Glory, where trouble will never come safe in the arms of Jesus, safe on his gentle breast. His last words were, "I see Jesus by my bed and I am now ready to go with him to glory, to be with him forever."

Brother Harry Blaine Cooksey, son of James and Mary Cooksey, was born September 28th, 1885, died June 9, 1908, age 23 years, eight months and twelve days. He was converted June 6th, 1908. Then called to all of his friends and said, "give me your hand you will meet me in heaven."

The funeral was preached by Rev. J. C. L. Moore in the Odd Fellows hall to a large congregation. Text, "Let not your heart be troubled."

Harry just asleep. He is waiting and watching for you. You will see him again, but not in this world. His robe is washed in the blood of the Lamb and is whiter than snow. A Friend.

## Back Yards.

The uncleanly back yard, with its accumulations of garbage and compost heaps that constitute breeding grounds for flies and other disease-spreading insects, must answer in many counts in this indictment. Despite its splendid organization and its recognized efficiency, the Sanitary Department has been unable, with the means at its command, to remedy these known and easily-removed conditions. Appropriations have not been sufficient to insure regular removal of garbage from city premises. The inconsistent ordinance that ostensibly provides for the removal of garbage, which is only one source of disease, and that requires the resident to remove his own stable compost, a health menace equally established, is likewise responsible for the grave aggravation of the original mischief.

The Board of Health and the Sanitary Department have each expressed themselves in definite terms and with perfect willingness to eradicate these feeders of the death rate one third hands are united. It is the first and unavoidable duty of Council to discharge the latter pressing mission. It can only be done by making sufficient appropriation to insure the systematic cleansing of city premises and give the Sanitary Department authority and means to remove all classes of disease-breeding accumulations.

## Cause for Thankfulness.

The following card of thanks recently appeared in a Kansas town: "I wish to thank the city authorities for quarantining me and my family for two weeks recently, because one of the children had the smallpox. During that time my wife caught up with her sewing, being undisturbed by callers just at meal time. We had three square meals a day, as no one came in and she wasn't permitted to go out. We enjoyed to weeks of good long night's sleep, and the best of all, a cousin with four children who arrived to visit us saw the smallpox sign on the door and left town so scared she will never come back again. I wish to thank the authorities, and hope they will be equally as thoughtful of our comfort some time again."

Respectfully  
Lysander Johnson.

The day is not far distant when "cards of thanks" will be things of the past. When death enters a home neighbors never fail to do all in their power to place a silver lining back of the dark cloud, and the day is not far distant when thanks through the public press. One subscriber, however, not to be outdone, sent in the following: "Mr. Editor, I desire to thank the friends and neighbors most heartily in this manner for their co-operation during the illness and death of my late husband, who escaped from me by the hand of death on last Friday while eating breakfast. To my friends and all who contributed so willingly toward making the last moments and the funeral a success, I desire to remember most kindly, hoping these lines will find them enjoying the same blessing. I have also a good milk cow, and roan gelding horse eight years old, which I will sell cheap. God moves in a mysterious way, His wonders to perform; He plants his footsteps in the sea and rides upon the storm. Also, a black and white short chemp."—Exchange.

## OUR NEIGHBORS.

Brock & Son, contractors, are beginning work on the bridge across the Big Sandy river at Pikeville.

Frank Friel, telegraph operator at Buchanan, has been taken to the hospital at Clifton Forge for treatment.

Charley Bronson, of Williamson, W. Va., has been selected as one of the secretaries of the National Democratic convention at Denver.

Mrs. Marcum, who was killed by an N. & W. train near Breeden, W. Va., last week, was the widow of Gideon D. Marcum, Sr. She was 50 years old.

The Elliott County diamond fields are again on a boom. The new machinery will remove 500 pounds of stone daily. New European capital has been enlisted and they think they are sure to find diamonds.

We are sorry it turned out that way, even though "we told you so" in advance. The Paintsville ball team was defeated in its game with Huntington Sunday. This is the first defeat sustained by Paintsville this year.

Hammond Williamson has been pardoned by Acting Governor Cox. He was sent up from Pike county in 1907 for the murder of a young man named Brown, of Johns Creek. He is past 60 years old and is said to be dying of consumption.

Since the withdrawal of the Hon. A. F. Byrd, of Winchester, the Democratic nomination for Congress, in the Tenth district, there has been a number of announcements for the nomination. Among them are S. S. Taulbee, County Judge of Brathen County, Charles Howes, of Johnson, Amos Davis of Morgan; G. L. Walmscott, and J. M. Stevens, of Clark. The convention is to be held at Estill Springs on July 15.

A new company of the Kentucky State Guard was mustered into the service in Catlettsburg Saturday night, with forty enlisted men. Immediately after swearing in the company Major Nelson J. Edwards, mustering officer held an election of officers for the new company. A. J. Adams is designated as Company "K," 2nd Inf., and the following officers were chosen, each receiving the unanimous vote of the men.

Captain, Lew. F. Chapman.  
1st Lieut. John Vanhousen.  
2nd Lieut. Alonzo Adams.

J. M. Webb, a prominent young mechanic of Huntington, and Miss Shamblin, a popular young woman, of Central City, a suburb of Huntington, were married in Newport, Ky. They have been sweethearts for years, and Sunday decided to go on an excursion to Cincinnati. While in Newport they decided to have the wedding take place Sunday instead of in September as originally planned. They sent a message to the father of the young woman telling of the nuptial knot being tied.

The Democrats of Mingo county have nominated a ticket to be voted for in November. It is headed by Judge E. Leftwich, the Republican incumbent of the criminal judgeship, who is out of line with the Republican faction now in control of the party in Mingo county. Other nominations were: W. A. Hirst, Sheriff; Wallace Chaffin, Prosecuting Attorney; A. C. Pimmon, County Clerk; Marvin Lambert, Circuit Clerk; N. V. James, Commissioner of the County Court; C. E. Stevenson, House of Delegates; Levi Gibson, Assessor; D. M. Goode, Surveyor.

Harry Hadford, wanted up in Pike county for a robbery committed eighteen months ago escaped from Constable Henry Baker, of Fullerton, and Constable Joe Hensley, of Garrison.

Armed with a warrant Baker went to Garrison and soon located his man in a blacksmith shop. Baker was accompanied by the Garrison constable, and the latter told Hadford to consider himself under arrest, while Baker quickly applied handcuffs to his wrists. Hadford by twisting caused the handcuffs to tighten around his arm and experienced considerable pain. Baker lingered behind to get another pair with which to relieve him, while Hadford started towards Vaneburg with the prisoner. Suddenly Hadford ran away from Horsely and, although handcuffed, easily distanced the officer. He was last seen disappearing in the wilds of Kinnikinnick. Later the officers found he had selected a secluded spot in the woods and filed the cuffs from his hands and made good his escape.—Independent.

## GOOD CLOTHES

## Do Not Make the Man, But

You are mainly judged by appearance. If you dress shabbily, you effect a lack of refinement, taste and worth. Do not foolishly think it is economical to wear an out-of-season suit because your friends in the business and social world do not approve that kind of economy. A good suit of clothes is an investment, which will pay you big dividends in prestige, respect and admiration. All these are worth having and the trifle you think you are saving by hanging on to a thread-bare, shabby suit is really a loss. In spite of a financial depression clothing is better in quality, style, fit and finish than it ever has been. Take advantage of the reasonable, economical prices which obtain here and dress well. It pays in the long run to have a good wardrobe. Do not be an exception.

Come into our store when you are in need of clothing, which counts for something in quality. There is distinction to our clothing and every garment is a paragon of excellence. We can supply your needs in furnishings. Try us if you would have entire satisfaction.
